

**Carrefour  
Pathologie**  
DIGITAL  
2020

**HEALTH  
DATA  
HUB**

**Time to conclude !**

## **For those who want to know more about the challenge :**

- Monday 23, 10:30 channel 4 : The data challenge backstage (in french)
- Video : in the Data Challenge congress booth (in french)
- Coming publications

## The main question :

Beyond the challenge metrics and score results,  
what are the true medical implications ?

**Developing a new drug** : several steps of pre-clinical experiments and several levels of clinical trials before being approved for treatment.

**A.I. in pathology diagnosis now** : “phase 1” proof of concept) in a standardized environment.

**Let's go to further validations in real environments !**

# Thanks

- All competitors, awarded and not awarded, for their excellent results and for having made this event alive on Driven Data !
- Organizing and scientific committee, the Health Data Hub and our main sponsor, the Innovation Council and Grand Defi A.I in Health
- The slides providers
- The expert pathologists who annotated on Cytomine.org
- The patients

Bonne soirée !

Have a nice day !

晚安！
