Greetings from NC Greece

Dear Delegates,

On behalf of the National Committee, it is a great pleasure to welcome you all to the 85th World Library and Information Congress of IFLA in Athens, Greece which will take place from August 24 to August 30, 2019.

The theme "Libraries: dialogue for change" invites the Library and Information Science international community to discuss, re-examine, re-think and re-interpret the role of libraries as promoters of change. Dialogue is the utmost expression of democracy, the basis for the freedom of expression and information and thus, the gear for a better future. Libraries serve as open, free, democratic, inclusive and participatory meeting places and mediators between knowledge and people.

In an era of rapid changes in the socio-economic-technological sphere, libraries ought to define their role as information providers, promoters of reading, settlers for the community they serve, key players in innovation, and leading actors for changes in the society. Libraries and society need to be in a constant, open dialectic relationship. This will lead to well-informed citizens facilitating progress and development, implementing the UN Agenda for Sustainable Development and leading to prosperity in all fields of the democratic society.

Greek libraries are also in a nodal point re-examining and re-defining their role, developing and promoting new information services, establishing collaborations and networks, incorporating cutting edge technologies, all with the view to meet the constantly changing needs of their audiences. Greek libraries face the challenges with optimism and work towards embedding new technological evolutions along with changes brought by a multicultural society.

The National Committee will propose a programme for visiting more than 60 libraries of all types, not only in the greater Athens area but in other cities around Greece as well, combining them with excursions to the archaeological and cultural sites found nearby.

Here, in Athens, the cradle of democracy and the World Book Capital for 2018, Delegates will have the unique opportunity to discuss, under the light of the Temple of Athena (Parthenon), the challenges for our profession in the new millennium. In Athens, the first public library in history with the main objective of storing, preserving, and disseminating the written heritage was founded, almost

the same time as the birth of Democracy, Philosophy, Science, and Theatre. The contemporary face of the city, including the new premises of the National Library of Greece, will offer the opportunity to examine the past, present, and future of libraries in a continuous line, connecting different periods of history in the bright highway of our profession.

The summer in Athens is a unique experience. The proximity to the sea where the visitor can enjoy the clear waters of Argo-Saronic Gulf; the Athens Festival with its vast cultural programme with performances varied from ancient Greek Theatre to post-modern music concerts; the vivid night life; the multicultural neighbourhoods which can offer almost everything even to the most demanding traveler. We are sure that Delegates of the IFLA World Library and Information Congress will have the opportunity to explore the city's life and live a part of the Athenian culture and atmosphere.

We look forward to welcoming you to the country that fosters open dialogue and discussion.

Sincerely,

Christina Kyriakopoulou

The Minister of Culture and Sports invites you

Dear Delegates,

On behalf of the Ministry of Culture and Sports, I would like to welcome you to the 85th IFLA World Library and Information Congress and Assembly (IFLA WLIC), which will be held in Athens in August 2019, in an event that follows the nomination of the city of Athens as the UNESCO World Book Capital in 2018.

We are indeed very proud that the National Library of Greece and the Association of Greek Librarians and Information Scientists are ready to host such a prestigious international event in Athens, at Megaron (the Athens Concert Hall), a high-quality standards conference and cultural venue that safeguards the success of the IFLA Congress.

The main objectives of the 85th IFLA WLIC in Athens are promoting libraries and librarianship at the local, regional and international level; providing an opportunity for Greek libraries and library professionals to exhibit, share and learn from best practices in the fields of information management and innovation; interaction of library and information services with social, cultural and economic development; and the development of equal opportunities for all vis-à-vis education and culture, with the inclusion of the physically and/or socially disadvantaged and of the cultural immigrants.

Furthermore, Athens, as a city, and Greece as a whole, find themselves in the middle of a true recovery and regeneration process, after a long period of economic downturn. The nomination of Athens as the UNESCO World Book Capital provides a unique opportunity for international sharing of experiences, best practices and innovation in the fields of culture and books. Our internationally renowned cultural heritage sites and infrastructure, including the Parthenon, the New Acropolis Museum, the National Archaeological Museum, the new National Library and all the city's major archaeological, Byzantine and contemporary art museums and exhibitions, in addition to its tourism and accommodation capacities, provide a unique environment for a fulfilling participation and ensure the success of hosting the IFLA WLIC in Athens.

The Minister of Culture and Sports invites you

The experienced personnel of the Ministry and its related organisations will help to make your stay in Athens beneficial and creative in the best possible way.

We look forward to welcoming you in Athens.

Sincerely,

Lydia Koniordou
Minister of Culture and Sports

The Mayor of Athens invites you

Dear Delegates,

It was a great pleasure for us to find out you selected Athens as your host for the World Library and Information Congress (WLIC) 2019, a flagship event for your industry providing a networking platform for professionals from across the globe.

Athens is a shining example of how a city can tap into initiatives and networks to drive growth and come up with attractive solutions for its residents and visitors, those who want to invest and create. Against all adversities, we have been working intensively towards building coalitions that showcase our great potential and outstanding attractions.

We know our unique history and heritage juxtaposed with our contemporary vibe and the vivid cultural scene is a rare combination that makes Athens stand out. For the last few years, the City of Athens has been actively investing in promoting cultural initiatives to create unique experiences. We have brought together more than 40 cultural institutions to establish the Athens Culture Net, a culture and arts network for residents, visitors, the artists and the institutions that makeup Athens' vibrant contemporary scene.

We co-hosted the renowned documenta 14 art fair, which brought 400,000 visitors to the city, to embolden our international positioning and our strategic pursuit to make our city a contemporary cultural destination. The culmination of our efforts was, of course, Athens being named the Emerging Cultural City of the Year for 2017 at the Leading Culture Destinations Awards in London. At the same time, Athens has become one of the most popular destinations in conference tourism, due to the wealth of services and know-how of our meeting industry professionals.

Your conference comes at a wonderful conjuncture for our great city. For the last few months, Athens has been gearing up to become UNESCO's World Book Capital City for 2018. Our motto "Books Everywhere" highlights how we plan to celebrate a year of book-related events across town including reading happenings, seminars and conferences, workshops and competitions, activities for adults, children and events focusing on vulnerable groups like migrants and refugees.

The Mayor of Athens invites you

At the same time, after years of preparations, our Greek National Library has made the journey into a new era. Hundreds of thousands of books have been moved into their new home, the contemporary Library housed at the impressive Stavros Niarchos Foundation Cultural Center.

Contemporary libraries are the arks for learning in our knowledge-based economies. We, at the City of Athens, view culture and knowledge as drivers for growth and sustainability, fields that mobilize the most extrovert and dynamic parts of society. We are very happy that Athens will be the host of such an important international meeting. We look forward to welcoming you to our great city, in the footsteps of some humanity's greatest thinkers.

Sincerely,

Georgios Kaminis
The Mayor of Athens

About IFLA

As the leading international body representing the interests of library and information services and their users, we place libraries on the global stage and help them develop.

We are the global voice and the largest brain trust of the library and information profession. We have an active network of more than 1,400 Members – leading associations and institutions from the library field – in over 140 countries around the world, 850 active volunteers, and well-established relations with the UN and other international organisations. Together with our Members, we work to set the professional agenda and develop standards for providing high-quality library services, to improve equitable and meaningful access to information, knowledge and cultural heritage resources, and to place this work at the heart of policy, from the local to the global level.

We do this by creating strategic alliances; enhancing professional education; developing professional standards; disseminating best practices; advancing relevant scientific and professional knowledge; and undertaking and supporting advocacy for libraries at all levels. We are committed to enabling all members of the Federation to engage in, and benefit from, our activities without discrimination. We embrace the principles of freedom of access to information, ideas and works of imagination and freedom of expression embodied in Article 19 of the Universal Declaration of Human Rights. We hold that people, communities and organisations need universal and equitable access for their social, educational, cultural, democratic and economic well-being, and to achieve sustainable development. The National Library of the Netherlands, located in the Hague, generously hosts our headquarters.

To advance the interest of our members, we:

- further accessibility, protection, and preservation of documentary cultural heritage;
- support a library and information profession which anticipates, responds, and continuously innovates to address the needs of communities worldwide;
- drives high standards in library and information services and professional practices;
- encourage widespread understanding of the value and importance of quality library and information services in the public, private and voluntary sectors;
- promote libraries as vital institutions that enhance people's lives and contributes to sustainable development through equitable access to information and knowledge;
- advocate for the best policies for libraries at all levels, through collaboration between headquarters, volunteers and members.

Destination | Athens, Greece

For the last few years, Athens has been rising as Southern Europe's most exciting city-break destination. Of course, the classic sights have drawn a crowd for centuries. But beyond the Acropolis and awe-inspiring antiquities, there are new cultural landmarks, a dynamic art and design scene, and a glittering coastline where urban regeneration projects are underway. The city's appeal as a tourist destination is flourishing, thanks to new infrastructure and cultural attractions, an expanding transportation network, more green spaces, and the unification of the city's main archaeological sites.

You can stroll along the cobblestone, pedestrian-only path that envelops Europe's largest Archaeological Park for a close-up view of some of the world's most significant ancient treasures, with first and foremost the Acropolis. Or you can choose to catch the tram to the coastline that stretches 120 kilometres for a walk or a swim along the Athens Riviera and beaches.

A unique combination of the old and the new set up against a spectacular Mediterranean landscape; a world-famous past, an exciting present. Ancient and brand new at the same time, Athens inspires and seduces its visitors, leaving its mark on their hearts and minds. Surrounded by a lining of stunning seas and mountains, this travel-friendly city is filled with gems just waiting to be discovered.

Renowned archaeological sites; modern and classical art museums and galleries; opera

houses; spas; elegant shops, restaurants and bars; street markets and bazaars; outdoor cinemas and 300 sun-drenched days are all to be found in Athens!

Athens has more than 275 hotels, 137 theatres, 67 cinemas, 50 museums, 2 concert halls, over 180 bars and 75 clubs. Mobile phones

Mobile phones automatically connect to Greek networks. You can also manually connect by choosing the option “network selection” on your mobile to get manually connected. Your roaming mobile phone operator will inform you about charges for local and international calls. Otherwise, you can always get a Greek mobile telephone number upon your arrival that you can use during your stay. You can buy a SIM card at any mobile phone shop and top up cards from the kiosks on the streets.

Passports, Visas and Letters of Invitation

Greece is part of the Schengen Area. The unified Schengen visa (C-type visa valid in Schengen states) entitles the holder to stay in the territory of all Schengen states.

The Schengen visa with limited territorial validity (C-type visa valid only in Greece or with validity excluded from a specified Schengen state/states) only entitles the holder to stay in the territory of the state/states for which it is valid.

What documents do you need when submitting a C-type Schengen visa application?

General Information A-Z

1. Travel document:

- valid at least three months after your planned departure from Greece/Schengen territory;
- with at least 2 blank pages;
- issued within the last ten years.

2. Completed and signed visa application form.

3. Biometric photo.

4. Visa fee.

5. Health insurance of at least EUR 30,000, valid in the entire Schengen territory.

6. Supplementary documents, confirming:

- the purpose of the visit,
- possession of accommodation;
- possession of sufficient funds to cover the cost of entry, stay and departure from the Schengen territory or Greece;
- willingness to leave Schengen territory after expiry of the visa.

The types and number of supplementary documents may differ depending on the consular office. Thus, we advise you to contact the relevant consulate to obtain full information concerning the documents needed when submitting a visa application. The consul of the Schengen state which is the main destination of your visit is always the consul competent to process your visa application.

If you are not planning to visit Greece at all, you cannot submit your Schengen visa application to a Greek consular office. If you are going to visit several Schengen states, a Greek consul

will be competent to process your application only if Greece is the main destination of your entry into the Schengen territory or if Greece is the state in which you intend to spend most of your time.

If you intend to stay in the territory of Greece and/or any other Schengen states (during one or more visits) for a total of up to 90 days within a half-year period calculated from the date of first entry, or if you plan to pass through Schengen territory (by train, car or plane), you need to apply for a Schengen C-type visa. For more information visit our MFA's website:
