

Abstract Guidelines

The EORNA Congress 2024 welcomes the submission of abstracts that make an original contribution to the field. All abstracts submitted will be peer-reviewed by an international review panel. Each abstract will be reviewed by at least two reviewers and the final selection of abstracts will be completed by members of the Scientific Committee.

- All abstracts must be submitted online via the [congress website](#). Abstracts sent by fax, post or email will not be considered. It is the author's responsibility to submit a correct abstract. Any errors in spelling, grammar or scientific fact will be reproduced as submitted by the author.
- Fields marked with an asterisk (*) are mandatory.
- Abstracts must be prepared in English and in "Sentence case" only.
- Authors must choose:
 - **Presentation type**
 - Oral presentation
 - Poster
 - **Study type**
 - Scientific Research
 - Case Study
 - Compilation
 - **Category** (The category is the general theme under which the abstract will be submitted and reviewed).
 - Perioperative/clinical practice
 - Education
 - Leadership/management
 - Patient Safety
 - Healthy Workplaces
 - Covid
 - Other
- **The abstract text must be added to the [provided template](#) and not exceed 300 words.**

The following items should NOT be added to the text: title of the abstract, authors' names, affiliations, figures and/or tables. The title, authors and affiliations will be added automatically based on the information inserted in the submission platform.

As the template suggests, the abstract text may contain:

- **Background** (shortly indicate the rationale of the study)
- **Objectives** (indicate the purpose of the study or the hypothesis that was tested)
- **Methods** (include the setting for the study, the subjects, and the type of statistical analysis; if references are needed, they should be given in the text)
- **Results** (present as clearly as possible the outcome of the study and statistical significance if appropriate)
- **Conclusion** (briefly discuss the data and emphasize the significance of the results).

Authors submitting a Scientific Research Study are required to add **Background, Objectives, Methods, Results** and **Conclusion** to the abstract.

Authors submitting a Case Study are required to add **Background, Objectives** and **Conclusion**.

- Only fully completed, presenter profiles and abstract submissions marked as final will be reviewed.
- Authors must submit original results that have not been published elsewhere.
- Submissions can be edited until the deadline, even after having clicked “submit”. **Authors must have clicked “submit” before the deadline for the abstract to be considered.**

Rule of Two

Each presenting author may present a maximum of two abstracts at the Congress. There is no limit to the number of abstracts which may be submitted by one author.

Notification of Acceptance or Rejection

Notification of acceptance or rejection for oral abstracts and poster abstracts will be sent after review is completed. Authors whose abstracts have been accepted will receive instructions for the presentation of their abstract.

Language

Presentations at the EORNA Congress 2024 must be held in English and speakers should be able to answer the questions from the audience in English. In the case the presenter is not confident to do so, he / she must make a prior arrangement with an English-speaking person for assistance during the presentation.
