2665 Vallensbæk E

mail: [eswell@sw.dk](mailto:eswell@sw.dk)

Denmark

[www.eswell.eu](http://www.eswell.eu)

Our ESWELL products are designed to improve the positioning of the patient during surgery, and at the same time they reduce the risk of developing pressure injuries.

Our ESWELL products increase the pressure distribution, and thereby improve circulation of the blood. They secure comfortable positioning of the patient even in awkward positions. The pads are easy to use and provide help when re-positioning.

The first ESWELL products were introduced in 2006, and today they are used in many hospitals in around 50 countries throughout the world.

### Johnson & Johnson Medical Devices Companies

As the world's most comprehensive medical devices business, we are building on a century of experience, merging science and technology, to shape the future of health and benefit even more people around the world. With our unparalleled breadth, depth and reach across surgery, orthopaedics, vision and interventional solutions, we're working to profoundly change the way care is delivered. We are in this for life.

### Ethicon

Ethicon, part of Johnson & Johnson Medical Devices Companies, has made significant contributions to surgery for more than 100 years from creating the first sutures, to revolutionizing surgery with minimally invasive procedures. Our continuing dedication to Shape the Future of Surgery is built on our commitment to help address the world's most pressing health care issues and improve and save more lives. Through Ethicon's surgical technologies and solutions including sutures, staplers, energy devices, trocars and adjunctive hemostats and our commitment to treat serious medical conditions like obesity and cancer worldwide, we deliver innovation to make a life-changing impact.
