# GENERAL SALES CONDITIONS

The data privacy of GMS GOURMET GmbH.

<https://www.gourmet-event.at/en/footer/hilfsnavigation/data-privacy/>

For all provisions not included in this offer our General Terms and Conditions will apply.

<https://www.gourmet-event.at/en/footer/hilfsnavigation/general-terms-and-conditions/>

## Our SUSTAINABILITY POLICY

Gerstner is part of GMS GOURMET GmbH, an established Austrian company that attaches great importance to sustainability.

We practice sustainability in all aspects of our business, for the sake of people and the environment: as a responsible and family-friendly employer, as a reliable partner for customers and suppliers, by purchasing regional, seasonal ingredients and by using all natural resources sparingly. We think holistically and for the long term, and we avoid short-term successes that go at the expense of people and the environment. We aim to continuously improve in this area.

### WHAT WE DO SPECIFICALLY

- We use energy and water sparingly.
- We avoid and reduce climate-damaging CO<sub>2</sub> emissions.
- We in particular take ecological factors into account in our purchases.
- We take a responsible approach to food. Our principle is: use-not-waste.
- We avoid and separate waste.

### GUARANTEED ENVIRONMENTALLY FRIENDLY

We want to continuously improve our environmental protection efforts. That's why we undergo regular auditing by independent certification bodies. This ensures that we identify challenges early and are always up to date.

### WE TAKE RESPONSIBILITY

Living nature, clean water and air are the basis of our life and must be preserved for our children and grandchildren. As an Austrian company and market leader in communal catering in Austria, GOURMET takes responsibility. We protect our environment by using limited resources carefully. And we want to encourage our customers, guests, suppliers and partners to follow our example.

The company mission statement of GOURMET is: We make good things better. We are also pioneers when it comes to environmental protection, and we want to do more than just meet legal requirements. We are working resolutely and continuously to improve environmental protection. When you enjoy our food, you can do so with a clear conscience. Because we don't just cook individual, tasty and balanced food, we are also sustainable.

### MANY SMALL THINGS ADD UP TO SOMETHING BIG

Our approach is one of eco-efficiency. Each measure is evaluated in terms of its cost-effectiveness and ecology. Our environmental teams work to continuously improve environmental standards and are ambassadors of our vision within the company. They come from a wide range of areas, are committed to the cause and plan and implement measures together with the management.

## AUSTRIAN ECO-LABEL

As an ecologically oriented company we take responsibility for our environment. We are always striving to achieve environmental improvements in order to preserve a beautiful and healthy environment for future generations.

The focus of our corporate philosophy is on our guests and customers on the one hand and on our employees on the other.

We want to be a reliable partner for our guests, which means our customers are actively involved in the implementation of environmental measures at the time the offer is made. For example, at each of our events we offer guests to take advantage of the Vienna Tafelboxes.

We firmly believe that high quality is only possible with the cooperation and mutual trust of each employee.

The Austrian Eco-Label is a seal of quality that stands for the highest ecological standards in tourism. More and more customers look for environmentally friendly catering and pay attention to sustainable event management.

We carry the Austrian Eco-Label because sustainability is a special concern for us. We therefore want to preserve the natural foundations of life for our children and grandchildren by actively protecting the environment. Sustainability and high quality are of the utmost importance to us.

Sustainable event management not only protects the environment, it also saves resources and helps cut costs. We use energy, natural resources and food with care. We use FAIRTRADE products, buy food regionally and seasonally and keep our carbon footprint low. We use energy and water efficiently, avoid waste and use reusable and bulk containers.

We are working consistently to improve environmental protection. Because we believe that many individual measures can have a wide impact.

As we are a large, high-performance company in the food service industry and have had continuous success for many years, we are sure that we can meet all your requirements to your full satisfaction. Long-term profits make us a competent partner for our customers and a reliable employer for our staff.

# Our awards

GOURMET(Gerstner) has carried the Austrian Eco-Label since 2015 and stands for sustainable, environmentally friendly events. So guests can enjoy themselves with a clear conscience. Energy, natural resources and food are used mindfully and, whenever possible, local foods or Fair Trade products are used.

 <p><b>ORGANIC CERTIFICATE</b> commercial kitchens Vienna and St. Pölten, parliamentary canteen) GOURMET was already certified as organic in 1997, making it an organic pioneer. The organic certificate is regularly checked by Austria Bio Garantie, Austria's leading organic inspection body.</p>	 <p><b>KLIMAAKTIV PROJECT PARTNER</b> (commercial kitchens Vienna and St. Pölten) As a klimaaktiv project partner, we implement measures to reduce CO2 emissions by applying the quality standards of klimaaktiv.</p>	 <p><b>ISO 14001 ENVIRONMENTAL STANDARD</b> (commercial kitchens Vienna and St. Pölten) ISO 14001 refers to the environmental management of production processes and services. Its focus is on impacts, improvements and a company's environmental goals.</p>	<p><b>ISO 50001 ENERGY STANDARD 2018</b> (all GOURMET establishments) This standard describes the requirements for implementing, operating and maintaining an energy management system and continuously optimising it.</p>
