

17th International Congress of Immunology  
October 18–22, 2019 | Beijing, China

## LIST OF TOPICS

Allergy  
Antigen Presentation  
Autoimmunity  
B Cell Development  
B Cells  
Bacterial Immunity  
Cell Therapy  
Cell Trafficking  
Comparative Immunology  
Computational Immunology  
Cytokines & Inflammation  
Dendritic Cells  
Emerging Infectious Diseases  
Emerging Technologies  
Fungal Immunology  
Genetics  
Granulocytes  
HIV  
Immunodeficiency  
Immunosuppression  
Indigenous Populations Diseases  
Innate Lymphoid Cells  
Innate Receptors  
Interferons  
Invariant T Cells  
Lectin Receptors  
Lymphocyte Signalling  
Macrophages  
Metabolism in Immunology  
Microbiome  
Mucosal Immunology  
Neuroimmunology  
NK  
NKT  
Parasite Immunology  
Perinatal & Aging  
Reproductive Immunology  
Systems Biology  
T Cell Development  
T Cell Memory  
Th Subsets  
Therapeutic Antibodies  
Tolerance  
Transcription Factors  
Transplantation  
Treg  
Tumour Immunology  
Vaccines  
Vet Immunology  
Viral Immunology
