IUIS-Society for Immunotherapy of Cancer (SITC) Primer on Cancer Immunotherapy

The IUIS-SITC Primer is a multisession program aimed at providing a foundation for the basic mechanisms of cancer immunotherapy. This program will touch on the immune cycle, the TME, clinical cancer immunotherapy, cancer vaccines, combination therapies, and cell therapies. The target audience for the IUIS-SITC Primer Session is international immunologists who may not be familiar with immunological approaches to cancer treatment.
