

Fashion Meets Science

19th ESSKA CONGRESS

11-15 May 2021

Wednesday, 12. May 2021

Channel Channel 1 - live Channel 2 - On demand Channel 3 - On demand Channel 4 - On demand Channel 5 - On demand Industry Channel (LIVE)

Theme Time Highlight and Keynote Lectures All about ACL All about Shoulder surgery All about Foot & Ankle All about Hip Arthroscopy

9:00 -17:45 On demand	My perfect ACL reconstruction	Anterior shoulder instability repair: This is how we do it!	State of the art in ankle arthroscopy and ankle cartilage repair	Basic hip arthroscopy I	Programme provided by Industry Partners 9:30-17:00
	The choice is yours: Tips and tricks in ACL refixation and graft harvesting techniques	Treatment of bone defect in shoulder instability: Technique and indications	High ankle sprains in athletes: Evaluation and treatment	Intermediate hip arthroscopy	
	Anatomical optimization of BTB grafting in ACL reconstruction	ESSKA-ISAKOS symposium: Posterior shoulder instability	New trends in treatment of Achilles tendon disorders	Advanced hip arthroscopy: Whats new?	
	Individualised ACL reconstruction	Current evolutions in the treatment for acromioclavicular joint instability	Acute syndesmotic injuries State-of-the-art diagnosis and surgical treatment		
	Extraarticular reconstruction in ACL deficient knee: The European perspective	Long head of biceps treatment: If you cannot be better - just dress better	State of the art in ankle ligament surgery	ESSKA-ISHA symposium: All about hip arthroscopy	
	Treatment of posterior cruciate ligament injuries		Fusion in the foot and ankle in sports - What is possible?		

Time (Live)

18:00	Congress Opening
18:15	The MCL- the Forgotten Ligament. How anatomic form and function optimise practise- The Werner Muller Principle
18:30	
18:45	The challenge of treating knee injuries in professional alpine skiing - A journey from arthroscopy to total knee replacement
19:00	
19:15	Fashion versus science in total knee arthroplasty
19:30	
19:45	EKA Keynote Lecture - Alignment more important than robotics in TKA
20:00	
20:15	
20:30	Stem cells in rotator cuff repair
20:45	
21:00	ESA Keynote Lecture - Transosseous equivalent rotator cuff repair
21:15	
21:30	ESA Keynote Lecture - Biceps tenodesis - An update
21:45
